Sidewalk Strutters

WORD FAMILY GAME

HOW TO PLAY

Using sidewalk chalk, draw a path on the driveway or sidewalk containing 10 blank spaces. Your path should be approximately 2 feet wide x 10 feet long.

Fill in each of the blank spaces with a word from the word family list on the right. You can also create your own list!

Players start at the bottom of the path.

Call out one of the words from the list. Players repeat the word, and jump to the corresponding space.

Once players reach the end of the path, have them turn around and repeat the words and steps at a faster pace back to the starting line.

Draw new paths for more word families such as _eat, _ill, _ock, and _ug.

TIP!
